

The background of the advertisement is a reproduction of the painting 'The Scream' by Edvard Munch. It depicts two figures in the foreground, one with an open mouth as if screaming and the other with a closed mouth and a slight smile. The sky is a turbulent mix of blue, green, and yellow, with a dark, stormy sea below. In the distance, two small boats are visible on the water.

NEW! SUPER CLASSIC SLING™

- Rapid gliding motion brings your gear quickly into position
- Neoprene pad with unique internal control-stretch system evenly distributes weight and absorbs shock
- Comfortable for both men and women
- Quick Adjust feature changes length in seconds
- The tripod connection remains free for use

The **SUPER CLASSIC SLING™** offers the same convenience as our **UTILITY STRAP™—SLING XL QUICK ADJUST** and features our Super Classic™ strap pad which is ideal for mirrorless and SLR cameras. The comfortable neoprene pad features a non-skid surface backing which really grips to the shoulder. It can be worn on either the left or right shoulder which increases its versatility. The internal control-stretch system combined with a comfort-stretch binding assures a durable strap that offers maximum comfort and support. Give it a try today!

SUPER CLASSIC SLING™

1001042	Super Classic Sling™	25" - 36" (63,5 - 91,4cm)	Black
1010042	Super Classic Sling™	25" - 36" (63,5 - 91,4cm)	Nature

NEW! SHOULDER CUSH™

- Quickly adds padded comfort and secure grip to any strap
- Touch fasteners wrap securely around straps measuring up to 2" (5,1 cm) wide
- Non-Skid Surface keeps the pad firmly in place
- Neoprene and memory foam construction offer ideal comfort

The **SHOULDER CUSH™** is the perfect add-on pad! It provides soothing comfort and extra grip to any strap. The touch fastener closures wrap around straps measuring up to 2" (5,1 cm) in width. The non-skid surface keeps the pad in place while the laminated neoprene and memory foam pad offers ideal comfort. No longer suffer with uncomfortable straps when adding the **SHOULDER CUSH™** can make all the difference!

1. Unfasten the touch closures.

2. Wrap them around the main portion of the strap.

3. Refasten the touch closures.

NEW! SUPER CLASSIC COMBO™

- 3 carrying options in 1 kit
- Contains everything you need: shoulder sling, neck strap and wrist strap
- Super Classic™ neoprene neck/shoulder pad features non-skid surface backing and internal control-stretch system
- Sling can be comfortably worn by men or women on either the left or right shoulder

The Super Classic Combo™ consists of the following parts:

The **SUPER CLASSIC COMBO™** from OP/TECH USA consists of a neck strap, a wrist strap and a shoulder sling all in one convenient kit. The **Uni-Loop™** connectors attach to the camera's strap connection area and allow the gear to switch between strap options in seconds. Never before has it been so convenient to choose which style of strap to use at any given time.

The comfortable **Super Classic™** neoprene pad features a non-skid surface backing which really grips to the shoulder. The internal control-stretch system combined with a comfort-stretch binding assures a durable strap that offers maximum comfort and support. It can be worn on either the left or right shoulder in the sling configuration.

The sling's quick adjust feature allows the length to be instantly shortened or lengthened as desired. This is great for hiking through dense brush or navigating large crowds as the camera can be cinched up close to the body for added security. To return the sling to its regular size, all that is needed is to lift the upper connector with a single finger and pull the camera down into shooting position. It's that easy!

To convert to a neck strap, the sling detaches with convenient quick disconnects and the included pair of **System Connectors™ – Extensions** are added. Then the **Uni-Loops** attach to the **Extensions** and voilà! You're all set with a conventional-style neck strap.

For the times when a wrist strap is the best choice for shooting, the **SLR Wrist Strap™** comes into play. Its soft, durable neoprene pad slips comfortably around the wrist and the security slide keeps it firmly in place. It's the perfect safeguard against accidental dropping or having a camera jostled from your hands.

SUPER CLASSIC COMBO™

1001001	Shoulder Sling/Neck/Wrist Strap	Black

UTILITY STRAP™ –SLING

- Ideal sling for heavy cameras
- Designed for both men and women
- Quick disconnects plus 2 Uni-Loop connectors
- Non-skid surface

The **UTILITY STRAP™** is available in three styles: Original (swivel hooks), 3/8" & the Sling version. The Sling version offers rapid access to gear while maintaining the security of a strap worn across the shoulder. The **UTILITY STRAP™ –SLING VERSION** comes with two of OP/TECH USA's exclusive Uni-Loop connectors. Most cameras will only need one, but for cameras with a third strap-connection point or when used with a battery grip, the second Uni-Loop will be used. The gear hangs securely at the side and will glide up and down the sling without interfering with a camera's tripod connection. The neoprene strap incorporates the patented OP/TECH USA internal-control stretch system to offer added support and ideal comfort. This strap is designed with the avid photographer in mind. The non-skid surface keeps it securely on the shoulder and the added comfort makes carrying heavy gear a joy. See the demo video at optechusa.com/Video-Gallery

UTILITY STRAP™ –SLING

Color	from top of shoulder to end of Uni-Loop connector 26.5" - 31" (67,3cm - 78,7cm)
Black	3501242
Nature	3510242

UTILITY STRAP™ –SLING XL QUICK ADJUST

The **UTILITY STRAP™ –SLING XL QUICK ADJUST** offers all the great features of the regular version (above) but adjusts to hold gear up to 5" lower. And speaking of adjustments, the Quick Adjust feature allows the sling to be cinched to any length with just a tug on the webbing loop. This is especially handy when gear needs to be kept close to the body in rough terrain or in large crowds. To lengthen the sling, simply lift the buckle with a single finger and pull the camera down with the other hand. Quick and easy!

UTILITY STRAP™ –SLING XL QUICK ADJUST

Color	from top of shoulder to end of Uni-Loop connector 25" - 36" (63,5cm - 91,4cm)
Black	3501262
Nature	3510262

UTILITY SLING™ –DUO

- Ideal sling for 2 cameras
- Designed for both men and women
- Quick disconnects plus 4 Uni-Loop connectors
- Non-skid surface

The **UTILITY SLING™ –DUO** offers rapid access to two pieces of gear while maintaining the security of a strap worn across a single shoulder. The **UTILITY SLING™ –DUO** comes with four of OP/TECH USA's exclusive Uni-Loop connectors. Most cameras will only need one, but for cameras with a third strap-connection point or when used with a quick-release plate, a second Uni-Loop will be used. The gear hangs securely at the sides and will glide up and down the sling without interfering with a camera's tripod connection. The neoprene strap pad incorporates the patented OP/TECH USA internal-control stretch system and a non-skid surface. If only one camera is needed for an outing, the quick disconnects allow you to remove one of the slings quickly and easily.

UTILITY SLING™ –DUO

Color	from top of shoulder to end of Uni-Loop connectors 26.5" - 31" (67,3cm - 78,7cm)
Black	3501232
Nature	3510232

URBAN SLING™

- Cut-resistant braided stainless steel inner cable offers added security
- "Quick Adjust" feature secures the camera in "body-guarded" position
- Ideal sling for heavy cameras
- Designed for both men and women

The **URBAN SLING™** from OP/TECH USA is the ideal solution for carrying gear in areas of dense population where security is a concern. It features a cut-resistant braided stainless steel cable incorporated into the webbing. The **URBAN SLING™** is designed with a special neoprene pad with internal layers of elastic and high-tech memory foam with a non-skid surface backing. The "quick adjust" feature allows the camera to be instantly secured in a "body-guarded" position keeping expensive gear from swinging too freely in a crowd. The **URBAN SLING™** incorporates our Uni-Loop™ connectors for attaching to the camera. These connectors are easily interchangeable with many other OP/TECH USA harnesses, slings and straps for added versatility.

URBAN SLING™

Color	from top of shoulder to end of Uni-Loop connector 25" - 36" (63,5cm - 91,4cm)
Black	6501052

TRIPLE CARRIER™

The **TRIPLE CARRIER™** from OP/TECH USA offers solutions for the photographer or outdoor enthusiast who needs more gear close at hand. It's perfect for the wedding photographer who needs three different cameras at the ready, or the birdwatcher who needs cameras and binoculars handy. The modular components of the **TRIPLE CARRIER™** allow the user to configure it for any scenario.

The reinforced neoprene yoke fits comfortably around the base of the neck and rests on the shoulders to give added mobility and support. It stretches to conform to the body so the load of the equipment is evenly distributed while also functioning as a shock absorber. This means no more pressure points or sore shoulders. The versatility of the harness is limited only by your imagination.

A single camera can be carried sling-style by using the included under-arm cinch strap opposite the camera to secure the yoke of the harness firmly in place. With just a few clicks, a pair of binoculars or camera can be added to either the center or opposite side. It can even carry a tripod with the addition of OP/TECH USA's **SYSTEM CONNECTORS™ – TRIPOD LOOPS** (sold separately, see pg. 11).

Since the **TRIPLE CARRIER™** utilizes OP/TECH USA's exclusive Uni-Loop Connectors, it is fully compatible with most other OP/TECH USA System Connectors, neck straps, wrist straps or harnesses. Give it a try and see how the **TRIPLE CARRIER™** can change along with your ever-changing needs.

Carry one, two, or three pieces of gear simultaneously!

TRIPLE CARRIER™

NEW STYLE!* DUAL HARNESS™ - 3/8" & *UNI-LOOP VERSIONS

- Comfortably and securely carries two cameras or binoculars
- Unique pad design evenly disperses the weight and balances the gear at one's sides
- Removable chest strap adds extra support and stability
- Easy to attach and fully adjustable with OP/TECH USA's System Connectors
- Interchangeable design enables the user to convert from a dual to a single sling system or to quickly move a camera to another OP/TECH USA strap
- Available in two versions: 3/8" and **New Uni-Loop**

The **Dual Harness™** from OP/TECH USA is a comfortable and versatile way to carry one or two cameras or binoculars. The unique U-shaped neoprene neck pad evenly distributes the weight of your gear while absorbing the shock of your movements. As the **Dual Harness™** uses the normal strap connector attachments, your gear remains safely in the upright position at your sides. This keeps the camera stabilized and secured within your view and grasp. By also maintaining the camera in the upright position, no stress is put on your camera, lens or shoe-mount flash units. Your cameras can be quickly and easily brought to the proper shooting position with the self-gliding connectors. As the **Dual Harness™** incorporates OP/TECH USA's System Connectors, your tripod mount remains available to use for brackets and other adaptors. These connectors also make it possible to quickly switch to another OP/TECH USA neck strap when desired.

Dual Harness™ is available with two different System Connector™ options: 3/8" webbing or Uni-Loop™ (see package insert for details). It comes in black and in two sizes so that you are sure to get a custom fit. Proudly made in the USA, **Dual Harness™** is sure to be a valued addition to your gear.

DUAL HARNESS™

Regular 34" - 44" (86,3 - 111,8cm) Chest	X-Long 44" - 56" (111,8 - 142,2 m) Chest
6501032	6501042

GRIP STRAP™

- Fits most SLR cameras
- Includes a removable metal base plate with rubberized pad and case screw
- Attaches to the camera with OP/TECH USA's Uni-Loop QD system and to the base plate with 3/8" webbing
- Secures around the back of the hand as well as around the wrist for added comfort and grip relief

GRIP STRAP™ offers a secure system for carrying an SLR camera in the hand. The metal base plate has a rubber pad to protect the camera's finish and uses a case screw to firmly attach to the tripod mount area. The base plate can be removed if a third attachment area exists on the camera. The **GRIP STRAP™** has a soft, durable neoprene pad that is adjustable. It fits snugly across the back of the hand and attaches comfortably around the wrist with snaps. This dual system provides a comfortable and secure strap.

GRIP STRAP™

Stock #	Description	Approx. Size	Color
6701242	Grip Strap	One size fits most SLRs	Black

DOUBLE SLING™

- Slings two cameras comfortably and securely
- Unique neoprene pad design evenly disperses the weight and balances the gear at one's sides
- Easy to attach and fully adjustable
- Interchangeable design enables the user to convert from a dual to a single sling system or to quickly move a camera to another OP/TECH USA strap

The **DOUBLE SLING™** from OP/TECH USA offers the same feel and fast action of the **UTILITY STRAP™-SLING**...times two! Its U-shaped neoprene pad effectively distributes and balances the weight of two cameras while absorbing the shock of the photographer's movements. The cameras glide up and down the strap with unparalleled ease and speed so photographers not only stay comfortable, they'll never miss a shot due to a tangled strap.

Using OP/TECH USA's exclusive **UNI-LOOP™ CONNECTORS** to attach the cameras, the tripod socket remains available. The strap also has added flexibility in that it can be adjusted to carry only one camera if desired. By simply adjusting one of the slings snugly under the arm, the U-shaped pad remains stable on the shoulders.

The **SLING STRAP ADAPTOR SYSTEM CONNECTOR™** used on the **DOUBLE SLING™** can be removed from the U-shaped pad and added to any other OP/TECH USA standard strap pad to create an over-the-shoulder sling strap. This interchangeable design gives the photographer flexibility to customize their gear to fit their ever-changing needs. Comfort, security and flexibility sum up the features of the **DOUBLE SLING™**. Give it a try!

DOUBLE SLING	
One size fits most	
6501082	

E-Z GRIP STRAP™

- Fits most SLR cameras
- Fast and very comfortable neoprene hand grip
- Attaches to the camera with OP/TECH USA's Uni-Loop QD system and to the base plate with 3/8" webbing

The **E-Z GRIP STRAP™** has many of the same features as our popular **GRIP STRAP™** but in a streamlined configuration. The **E-Z GRIP STRAP™** is ideal for the photographer who wants the stability of a hand strap with the flexibility to get in and out of the grip quickly and easily. The anodized aluminum base plate is removable and has a rubber pad to protect the camera's finish. It uses a case screw to firmly attach to the tripod mount area of the camera. The Uni-Loop connection system can be quickly switched from the **E-Z GRIP STRAP™** to many other OP/TECH USA straps.

Neoprene pad wraps around webbing and snaps in place to form cushioned hand strap.

E-Z GRIP STRAP™

6701232	E-Z Grip Strap	One size fits most SLRs	Black

GIMME GRIP STRAP™

- For cameras using a quick-release plate with an attachment area or a battery grip with connection area
- 3-position adjustable elastic strap secures comfortably around the wrist
- Alternate connection options for tighter fit or smaller hands
- More freedom of movement and easy reach of camera controls

OP/TECH USA's **GIMME GRIP STRAP™** is the accessory that active photographers have been waiting for. As many photographers are using quick-release plates to go from a handheld position to tripod shooting in an instant, the **GIMME GRIP STRAP™** is an ideal solution. It uses a Uni-Loop Connector to attach easily to many brands of quick-release plates that offer a strap connection area. If the camera itself has an extra attachment area located on the grip, then a quick-release plate is not needed at all to attach the lower part of the **GIMME GRIP STRAP™**.

The **GIMME GRIP STRAP™** also attaches to the normal strap attachment area on the upper part of the camera to give added stability. For this attachment area we offer two options: regular fit (Uni-Loop Connector) and tight/short fit (Special attachment system) for smaller hands. Both options are fully compatible with most OP/TECH USA neck straps, wrist straps and harnesses! This versatility gives photographers the freedom to switch to their preferred shooting setup in just seconds.

The **GIMME GRIP STRAP™** has a 3-position adjustable elastic wrist strap that offers a secure grip without compromising the ability to easily access all camera and view screen controls or shooting positions. Its comfortable fit and design offers the assurance against dropping expensive gear without the feeling of being chained to it!

GIMME GRIP STRAP™	
Color	3-position adjustable elastic wrist strap fits most wrists
Black	6701262

GOTCHA WRIST STRAP™

- Fits most cameras & binoculars
- Fully adjustable
- Quick disconnect
- Connects with the Uni-Loop QD

GOTCHA WRIST STRAP™ offers a soft, durable neoprene pad that wraps snugly and comfortably around the wrist and attaches easily to a camera or binoculars. The touch fastener forms a secure, yet adjustable closure. The quick disconnect enables the user to quickly remove the strap when changing film, media cards and batteries. The Uni-Loop connection system can be quickly switched from the **GOTCHA WRIST STRAP™** to many other OP/TECH USA straps. OP/TECH USA has "gotcha" covered with the **GOTCHA WRIST STRAP™**!

GOTCHA WRIST STRAP™	
Wrist Adjustable 7" - 9.5" (17,8cm - 24,1cm) - Webbing Adjustable 8" - 10" (20,3cm - 25,4cm)	
Black	Royal
6701252	6704252

SLR WRIST STRAP™

- Fits most SLR cameras and binoculars
- Neoprene strap secures comfortably around the wrist while the unique Uni-Loop system attaches to the camera
- Security slide tightens the strap around the wrist
- 1 3/8" wide neoprene pad

OP/TECH USA's **SLR WRIST STRAP™** offers a comfortable alternative for carrying an SLR camera or other gear. It attaches to the camera with our unique Uni-Loop System which gives it added versatility to quickly change from one style of OP/TECH USA strap to another in a matter of seconds.

The neoprene wrist strap is adjusted around the wrist with a security slide to keep it firmly in place. It's a convenient and comfortable alternative to wearing a camera around the neck. Keeping it simple and secure is the secret to the **SLR WRIST STRAP™**. It offers good peace of mind when shooting without a neck strap.

MIRRORLESS WRIST STRAP

- Fits most small SLR, mirrorless and compact cameras
- Soft and durable neoprene pad with security slide
- MINI LOOP QD CONNECTOR™ attaches easily to camera
- 1" wide neoprene pad

The **MIRRORLESS WRIST STRAP** is the perfect solution for carrying cameras that are larger than a point-and-shoot camera but smaller than a full-size SLR. The pad is made from soft yet durable neoprene with a slide that tightens the strap snugly around the wrist for security and comfort. This keeps the camera always at the ready and close in your grip. Keeping gear conveniently at hand while also guarding its security is a must for the active photographer on the go!

For added convenience and versatility, the **MIRRORLESS WRIST STRAP** features a **MINI LOOP QD CONNECTOR™** (see pg. 10). The connector attaches to the camera with 1.5 mm cord loop to fit even the tightest camera connection area. The strap can be easily removed at the quick disconnect leaving the small loop attachment on the camera so that it can be compactly stored away in a small pouch or pocket. The strap measures approximately 11" long to fit virtually any size wrist and can be made as small as needed with the security slide. Discover just how comfortable carrying a camera can be with OP/TECH USA's exclusive **MIRRORLESS WRIST STRAP**.

MIRRORLESS WRIST STRAP

MIRRORLESS STRAP™

- Ideal neck strap for lightweight mirrorless cameras and other small SLR cameras
- Neoprene pad with non-skid surface & Lycra® binding
- Easy to attach with 3" Mini QD Loops
- Fully adjustable
- 3/4" Quick Release System for added convenience and versatility

The **MIRRORLESS STRAP™** from OP/TECH USA is designed to accommodate cameras that are larger than a point-and-shoot, but smaller than a full-size SLR. It features a soft and comfortable neoprene pad backed with a non-skid surface and bound with Lycra® for added support. It attaches to a camera with two strong **MINI QD LOOP™** connectors with 1.5 mm cord loops and is fully adjustable to fit photographers of all sizes and shapes. The **MIRRORLESS STRAP™** is also compatible with many other **SYSTEM CONNECTORS** (see page 10) so it can be used with other cameras or binoculars. Discover a new level of comfort today!

MIRRORLESS STRAP™	
Color	38" - 48" (96,5 - 121,9cm)
Black	1601502

MIRRORLESS SLING™

- Ideal sling-style strap for most lightweight mirrorless cameras and other small SLR cameras
- Neoprene pad with non-skid surface & Lycra® binding
- Easy to attach with 3" Mini QD Loops for better clearance and mobility
- Includes an additional Mini QD Extension for security lanyard

OP/TECH USA's **MIRRORLESS SLING™** offers unparalleled comfort and convenience when shooting with a mirrorless camera or other small SLR camera. The neoprene pad is bound with Lycra® for added support. The sling allows the camera to be carried discretely at the side yet the camera glides easily up the strap into shooting position.

The **MIRRORLESS SLING™** can be worn on the left or right shoulder. The camera is attached to the front **MINI QD LOOP™** connector so that when raised into shooting position the strap is out of the way. It uses 1.5 mm cord loops for tight connection areas. The sling can be attached using only this one connector if desired; however, the security tether can be easily attached to the other side of the camera for added peace of mind. When attached properly, the strap will be out of the way when in the shooting position. If a longer configuration is needed when using the single-point connection option, the **MINI QD EXTENSION** included in the tether can be used to give that added bit of length (6"-9" [15,2 - 22,9 cm]) to the primary attachment point. (See tether and extension pictures above)

The **MIRRORLESS SLING™** is the ideal accessory for the popular smaller mirrorless cameras on the market. Make it part of your essential gear!

MIRRORLESS SLING™	
Color	from top of shoulder to end of Mini QD Loop connector 27.5" - 32" (69,9 - 81,3cm)
Black	1601512

COMPACT SLING™

OP/TECH USA's **COMPACT SLING™** offers cushioned comfort in a low-profile design for small point-and-shoot cameras! The 4 mm neoprene pad features a non-skid surface which secures the pad on the shoulder while the camera freely glides up the strap into shooting position. The OP/TECH USA Mini QD Loop Connector attaches easily to the camera with a thin 1.5 mm cord loop for tight connection areas and a sturdy 3/8" quick disconnect for easy attachment to the strap. The quick disconnect smoothly glides up and down the 3/8" nylon webbing strap to create the sling effect. The length is fully adjustable and has an additional plastic triglide which serves as a stop to adjust where the camera rests in the lowered position.

The Mini QD Connector is fully compatible with OP/TECH USA's **MINI LOOP STRAP-QD** for a more traditional neck strap as well as the **CAM STRAP-QD** wrist strap and the **FINGER CUFF-QD** (see pg. 12). This added versatility enables gear to quickly switch from one strap configuration to another. Experience the freedom and convenience of the most versatile strap system on the market today!

COMPACT SLING™

Color	from top of shoulder to end of Mini QD Loop connector 24" - 29" (61 - 73,7cm)
Black	3401002

1. Detach the loop connector from the strap at the mini quick disconnect.
2. Slide the cord through the retaining lug* and create an opening large enough to loop through the remaining part of the connector.
3. Pull the connector system tight to form a secure hold. Reattach to strap.

*Larger cameras typically require the addition of a split ring on their lugs to avoid severing the cord on the Mini QD Loop Connector.

E-Z COMFORT STRAP™

- Streamlined neoprene design fits most cameras & binoculars using 3/8" webbing
- Very strong & durable
- Lightweight & comfortable
- Compatible with most binocular rainguards

The "no frills" approach to a comfortable and functional neck strap is what OP/TECH USA offers in the **E-Z COMFORT STRAP™**. The slim design and easy-to-use connection system make this a great strap for binoculars and cameras. It combines high quality neoprene, top grade leather and 3/8" webbing to create a simple, yet comfortable strap. Getting down to basics without sacrificing quality is what the **E-Z COMFORT STRAP™** is all about.

ENVY STRAP™ - 3/8"

- Padded comfort in a non-stretch design
- High-tech memory foam for comfort
- Antimicrobial material allows moisture to dissipate
- Tailored design in a slim profile
- Quick Disconnects

ENVY STRAP™ is sure to be the envy of every photo enthusiast. The unique high-tech memory foam contours to the shape of the neck and shoulders creating a custom fit. The antimicrobial material draws away moisture so it's comfortable in all weather conditions. This special feature is particularly important for those photographers working in hot climates for prolonged periods of time. The tailored, non-stretch design offers photographers a nice alternative to the traditional camera strap. It incorporates OP/TECH USA's 3/8" **SYSTEM CONNECTORS™** for added versatility.

FASHION STRAP™

FASHION STRAP™ - 3/8"

FASHION STRAP™ - BINO

- Fits most cameras & binoculars
- Easy to attach
- Quick disconnects
- Very strong & durable
- Fully adjustable

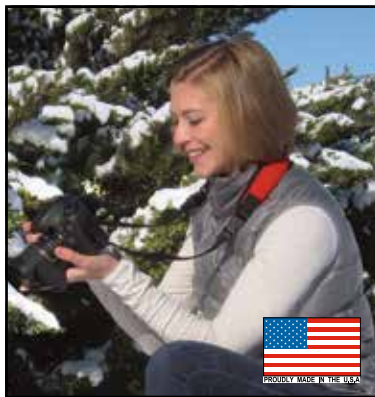

FASHION STRAP™ is the original neoprene strap and incorporates only the finest materials available. The neoprene is bonded on both sides with top quality material for added strength and a controlled stretch. The OP/TECH USA patented connectors add a unique finishing touch. They are easy to attach and extremely strong. The quick disconnects give the strap added versatility which is a real bonus when customizing the strap for different needs. The weight reduction system makes cameras and binoculars feel 50% lighter and 100% more comfortable. **FASHION STRAP™ - 3/8"** uses OP/TECH USA's 3/8" Webbing **SYSTEM CONNECTOR™** that fits easily through tight connection areas and offers a very secure alternative to the original **FASHION STRAP™**. For customers who prefer a shorter, simpler design, OP/TECH USA offers the **FASHION STRAP™ - BINO**. It does not have quick disconnects which allows it to work well with most rainguards. It's extremely adjustable and uses 3/8" webbing to fit easily in tight connection areas. Ideal for binoculars!

CLASSIC STRAP™

- Fits most cameras & binoculars using 3/8" webbing connectors
- Tailored design incorporates "Comfort-Stretch" binding for added support
- Easy to attach
- Fully adjustable
- Quick disconnects

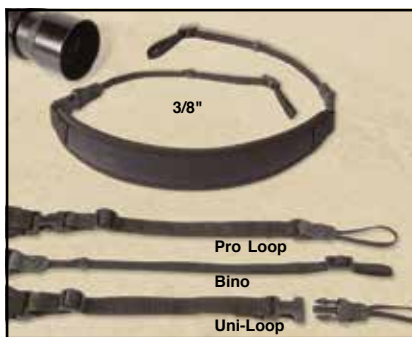

The CLASSIC STRAP™ adds a touch of class to any camera or binocular. The tailored design is made with soft, durable neoprene combined with a unique "Comfort-Stretch" binding. While the neoprene evenly distributes the weight, the unique binding gives added support in order to eliminate shoulder and neck fatigue. This combination makes cameras and binoculars feel 50% lighter and 100% more comfortable. The quick disconnects give the strap an added feature as they can be attached together to form a small carrying handle when the neck/shoulder strap is not in use. Your customers get two straps in one! CLASSIC STRAP™ is sure to be a "classic"!

SUPER CLASSIC STRAP™

- Ideal for heavy cameras & gear
- Tailored neoprene design combines comfort-stretch binding with a patented internal control-stretch system for added support
- Available in 4 styles:

- 3/8" Webbing: adjustable from 25" - 51"
- Pro Loop: adjustable from 37" - 44"
- Bino 3/8" (No QDs): adjustable from 23" - 67"
- Uni-Loop: adjustable from 36" - 43"

For the photographer/birdwatcher carrying a heavy camera or binoculars, the SUPER CLASSIC STRAP™ is a great option. It has the same tailored design as the popular CLASSIC STRAP™; however, it adds the patented internal control-stretch system found in our S.O.S. STRAP™ in addition to our non-skid surface. This combination is ideal for the individual desiring a narrower strap design that has the needed strength and comfort features required for handling a heavy load. SUPER CLASSIC STRAP™ is sure to please!

PRO STRAP™ - 3/8" & PRO LOOP STRAP™

- Neoprene strap fits most cameras & binoculars
- Quick disconnects
- Very strong & durable
- Non Slip Grip™

The PRO STRAP™-3/8" and the PRO LOOP STRAP™ offer serious photographers using large cameras and lenses or a portable power pack a welcome reprieve from the heavy weight of their gear. The patented weight reduction system makes equipment feel 50% lighter and 100% more comfortable. The weight is evenly dispersed while the strap functions as a shock absorber to eliminate neck and shoulder fatigue. The 3/8" Webbing Connectors give added adjustability and versatility so a camera can be easily worn across the chest if desired. The Pro Loop Connectors are ideal for especially tight connection points. They loop through the connection area to form a slip knot which "falls" away freely from the camera when in use. A comfortable and secure system!

UTILITY STRAP™ SERIES - SWIVEL, 3/8", SLING

- Neoprene strap available in 3 versions: Swivel Hook, 3/8" & Sling Version
- Quick disconnects
- Non-skid surface

The UTILITY STRAP™ is available in three styles: Original (swivel hooks), 3/8" & the Sling version. The original version uses 3/4" webbing and rugged locking swivel hooks for fast and easy attachment to small bags, battery packs and much more. The 3/8" version is ideal for cameras and binoculars. The Sling version offers rapid access to gear while maintaining the security of a strap worn across the shoulder. Using OP/TECH USA's exclusive Uni-Loop connectors, gear hangs securely at the side and will glide up and down the sling without interfering with a camera's tripod connection. Cameras with two connection areas will only use one Uni-Loop. Cameras with an additional connection area on the right side of the camera (such as on a battery grip or quick-release plate) will use both Uni-Loop connectors. The neoprene strap incorporates the patented OP/TECH USA internal-control stretch system to offer added support and ideal comfort. The non-skid surface keeps it securely on the shoulder and the added comfort makes carrying heavy gear a joy.

UTILITY STRAP™ SERIES			
Color	3/8" Version (26" - 53") (66cm - 134,6cm)	Swivel Version (40" - 53") (101,6cm - 134,6cm)	Sling Version (26.5" - 31")* (67,3cm - 78,7cm)*

REPORTER STRAP™

- Comfortably and safely carries two cameras or a camera/binocular combination
- Weight reduction system for added support
- Fully adjustable: Primary strap uses 3/8" webbing
Secondary strap uses the Backpack/Reporter Connection System (see pg. 11)
- Secondary strap can be easily removed for added versatility and convenience
- Soft, durable neoprene pad with Non Slip Grip™
- Quick Disconnects

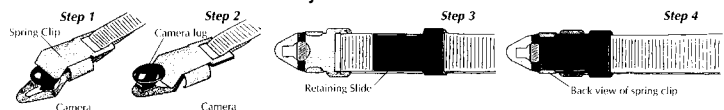

REPORTER STRAP™

SUPER PRO STRAP™

- A choice of two designs fits most medium format & cameras with retaining lugs
- Easy to attach
- Fully adjustable
- Strong & durable neoprene strap
- Quick disconnects
- Non Slip Grip™

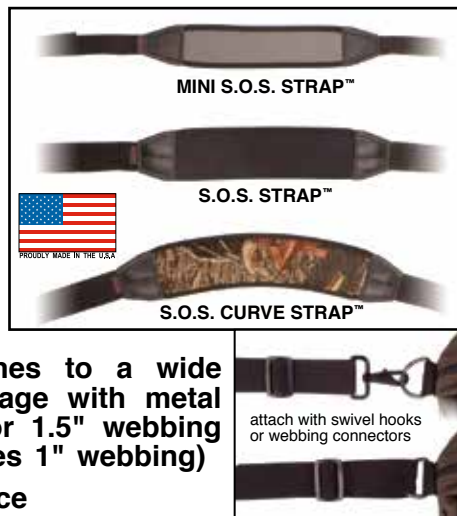

Users of medium format and other cameras with retaining lugs can benefit from OP/TECH USA's patented weight reduction system. **SUPER PRO STRAP™** is available in a choice of two clip designs to better fit the different camera models on the market. OP/TECH USA has developed a unique locking slide mechanism which adds extra protection for a secure connection. Once the metal clip is attached to the retaining lug, the plastic locking slide is secured in position behind the metal clip. This prevents the clip from inadvertently opening—another innovative design created by OP/TECH USA! The **SUPER PRO STRAP™** is adjustable from 36" - 45".

SUPER PRO STRAP™

S.O.S. STRAP™, S.O.S. CURVE STRAP™ & MINI S.O.S. STRAP™

- Comfortably carries heavy bags, briefcases, computer bags and luggage
- Unique internal control-stretch system makes loads feel up to 50% lighter
- Securely attaches to a wide variety of luggage with metal swivel hooks or 1.5" webbing (Mini S.O.S. uses 1" webbing)
- Non Skid Surface
- Fully adjustable for added versatility

The **S.O.S. Strap™** "Saves On Shoulders" with its unique neoprene pad featuring our patented internal control-stretch system and tailored design that effectively distributes weight and absorbs shock of movement. It's the perfect strap for heavy bags and cases; however, they can be easily removed if the 1.5" (3,8 cm) webbing is the preferred connection option. It is available in three versions; Regular, Curve and Mini.

TRIPOD STRAP & TRIPOD STRAP-SWIVEL

- Neoprene strap fits most tripods
- Offered in two styles: ORIGINAL and SWIVEL
- Quick and easy attachment systems
- Very strong, durable and washable
- Available in black and nature

Both the **TRIPOD STRAP** and **TRIPOD STRAP-SWIVEL** incorporate soft, durable neoprene with OP/TECH USA's patented internal-control stretch system. This system effectively distributes the weight of the tripod while absorbing the shock of movement. The result is the most comfortable strap available. The non-skid surface securely grips to one's shoulder so hands are free to deal with other equipment or navigate rough terrain. Both styles offer versatility in the way the tripod can be carried. It can be adjusted so the tripod is horizontal against one's side or in the vertical position down the back. This allows for the camera gear to remain on the tripod when being moved.

The **TRIPOD STRAP** attaches on both sides with webbing that loops around the tripod and connects with a quick disconnect for fast, easy connection. The **TRIPOD STRAP-SWIVEL** uses the loop attachment for the head of the tripod and a swivel hook to attach to an eyelet on the center bracket. Two great styles offering ideal comfort and convenience!

TRIPOD STRAP		
Color	Original 19.5" - 49.5" (49,5cm - 125,7cm)	Swivel Hook 28" - 48" (71,1cm - 121,9cm)

NEW STYLES! SYSTEM CONNECTORS™

With the OP/TECH USA **SYSTEM CONNECTORS**, individuals have several connection options from which to choose. Straps can be lengthened to be worn across the chest or shortened to be worn at chest level. Another feature of many of the **SYSTEM CONNECTORS** is the small carrying handle created when the quick disconnects of the System Connectors are latched together. The Uni-Loop Connectors allow users to have a universal system with many other OP/TECH USA products. Available in complete sets and only from OP/TECH USA.

NEW! Magnetic QD™ The perfect solution for keeping a lens cap or other accessory readily at hand. It connects easily to any of our 3/4" quick disconnects between the strap pad and the main strap. It offers a strong rare-earth magnet to securely hold equipment. It comes with three mating magnets with a self-adhesive side that can be applied to lens caps, lens mount caps, loupes or whatever might be needed to keep ready for immediate retrieval.

Connector is 1" long x 3/4" wide **STOCK # 1301142**

NEW! Sternum/Under Arm Adaptor™ is for photographers wanting to add a chest strap to a strap or harness for added stability and security. The quick-attach triglides thread easily onto the webbing of an OP/TECH USA strap or harness. It can also be used to further secure gear under the arm. Fully adjustable from 9.5"-18.5" (24,1 - 47 cm). **STOCK # 1301232**

3/8" Connectors™ (Regular & X-Long) Our most popular connector! Durable 3/8" webbing with triglides. Comes in sets of 2

Fully adjustable: (Regular) 4"-17" (10,2 - 43,2 cm) ea. side. **STOCK # 1301252**
(Extra Long) 4"-23" (10,2 - 58,4 cm) ea. side. **STOCK # 1301262**

Adapt-Its™ are the rugged and flexible low-profile way to add a swivel connector strap to any standard 3/8" connection area. Approx. 1" (2,5 cm) long. **STOCK # 1301322**

Adjustable Connectors™ Featuring patented thermoplastic-rubber connectors that hold strong but remain flexible. Comes in sets of 2. Adjustable from 8 1/2" - 13" (21,6 - 33 cm) ea. side. **STOCK # 1301152**

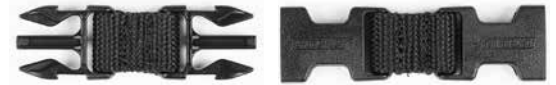

Extension Connectors™ (Reg. & X-Long) are the handy way to add extra length to an OP/TECH USA strap. Also works great with Uni-Loop Connectors to create a strap of regular or extra-long length.

(Regular) 7 1/2" to 11" (19 - 27,9 cm) **STOCK # 1301052**
(Extra Long) 10 1/2" to 16" (26,7 - 40,6 cm) **STOCK # 1301092**

Gender Changers™ allow greater flexibility and creativity in connecting gear. A set of Male-to-Male and Female-to-Female connectors can be used to modify the UTILITY STRAP™-SLING for use on the right shoulder, as well as many other uses. Comes in sets of 2. **STOCK # 1301402**

Lens Loops™ are perfect for supporting a camera and long lens at the point where they meet to reduce the stress on both components. The camera can be carried in an inverted position while leaving the tripod socket free. The non-marring rubberized surface grips the lens barrel at the point where it mounts to the camera. Comes in sets of 2. Approx 3.25" (8,2 cm) diameter **STOCK # 1301412**

Mini QD Converters™ allow users to fasten many OP/TECH USA straps to small cameras. It combines 1/4" tubular nylon webbing with a miniature 3/8" quick disconnect to create the "step up" to a larger strap. Adjustable from 3"-7" (7,6 - 17,8 cm) ea. side. **STOCK # 1301282**

Mini QD Extensions™ allow users to add length to small camera straps such as OP/TECH USA's BIN/OP STRAP™-QD. They can also be used to create a short tether for wrist straps such as the CAM STRAP™-QD. Comes in sets of 2. Approx. 6" to 9" (15,2 to 22,9 cm) long ea. side. **STOCK # 1301432**

Mini QD Loops™ allow users to fasten small cameras to many OP/TECH USA neck straps. They incorporate a thin cord loop for tight connection areas and 3/8" quick disconnects for easy attachment to strap. Available in 1mm & 1.5mm cord thicknesses. Comes in sets of 4. Approx. 2.5" (6,4 cm) long. 1 mm Cord **STOCK # 1301112**
Original 1.5 mm Cord **STOCK # 1301082**

Mini QD Step-Up™ For attaching compact cameras & binoculars to larger OP/TECH USA straps. Comes in sets of 2. Approx. 4 1/2" (11,4 cm) long ea. side. **STOCK # 1301202**

Mirrorless Mini QD (for strap)™ allows users to attach mirrorless cameras as well as other small DSLR cameras to a regular OP/TECH USA camera strap. Comes in sets of 2. Approx. 11" to 16" (27,9 to 40,6 cm) long ea. side. **STOCK # 1301452**

Mirrorless Sling Adaptor™ clips onto a strap pad to convert it to an over-the-shoulder sling for mirrorless and other small DSLR cameras. Includes a short tether for added security or to add additional length. Incorporates two 3" (7,6 cm) Mini QD Loop connectors for better clearance and mobility on the camera.
Approx. 28.5" to 39" (72,4 to 99 cm) long. **STOCK # 1301442**

Pro Loop Connectors™ (Regular & X-Long) use ¼" tubular nylon webbing which fits easily on cameras with tight connection areas.
(Regular) 10"-13" (25,4 - 33 cm) ea. side. **STOCK # 1301372**
(Extra Long) 13"-19" (33 - 48,3 cm) ea. side. **STOCK # 1301382**

Reporter/Backpack Connectors™ Using our popular Uni-Loop connectors and rugged strap clips, the Reporter/Backpack converters allow users to add a second camera or binoculars to a neck strap or backpack. Adjustable from 8½"-10½"
(21,6 - 26,7 cm) ea. side. **STOCK # 1301652**

Secure-Its™ are easy to attach, non-marring connectors for those who want added security on quick disconnects. Simply thread them through the connectors and touch fasten for extra peace of mind. Comes in sets of 4.
STOCK # 1301042

Sling Strap Adaptor™ clips onto a strap pad to convert it into an over-the-shoulder sling. Cameras with a third connection point located on the grip use two Uni-Loops. All other cameras use only one Uni-Loop. Comes with 2 Uni-Loop connectors.
Adjustable from 23"-36" (58,4 - 91,4 cm) **STOCK # 1301242**

Sling Strap Adaptor- Quick Adjust™ clips onto a strap pad to convert it into an over-the-shoulder sling. The "Quick Adjust" feature allows the length of the sling to be quickly and easily adjusted. Cameras with a third connection point located on the grip use two Uni-Loops. All other cameras use only one Uni-Loop. Comes with 2 Uni-Loop connectors.
Adjustable from 23"-46" (58,4 - 116,8 cm) **STOCK # 1301462**

Super Pro Connectors™ are for medium-format cameras with connection lugs. Super Pro "A" fits many Bronica, Hasselblad, Kiev and Pentax LX cameras.
Super Pro "B" fits many Mamiya, Olympus IS, Rollei and Pentax 6X7/645.
Adjustable from 10"-15" (25,4 - 38,1 cm) ea. side. (Super Pro "A") **STOCK # 1301022**
(Super Pro "B") **STOCK # 1301292**

Swivel Hook Connectors™ Great for use on small bags, cases, battery packs and much more. Can be used on cameras with the Utility Loop or Adapt-Its™. Comes in sets of 2
Adjustable from 11"-17" (27,9 - 43,2 cm) ea. side. **STOCK # 1301072**

Tiny-Mighty Swivel™ Allows camera strap to freely swivel. Fits most cameras having a lug/hole or slot-style connection area. Can be quickly and completely removed leaving only the bare minimum attached to the camera. (Swivels weight tested to 140# / side.)
Contains 2 leather pads, 2 - 3/8" split rings, 2 Adapt-Its, 2 swivels. Approx. 2.375" (6 cm) long ea. side.
STOCK # 1301132

Tripod Loops™ clips onto a strap pad to convert it into a tripod strap or sling. Loops with quick disconnects fasten securely around a tripod's head and legs.
Adjustable length for a comfortable fit. Comes in sets of 2.
Adjustable from 2" - 11.5" (head) and 2" - 18.5" (legs) (5,1 - 29,2 cm, head and 5,1 - 47 cm, legs)
STOCK # 1301472

Uni Adaptor Loop Connectors™ (Reg. & X-Long) Converts any OP/TECH USA neck strap to be completely interchangeable with OP/TECH USA wrist straps and harness systems. Comes in sets of 2.
Fully adjustable: (Regular) 10½"-13½" (26,7 - 34,3 cm) ea. side. **STOCK # 1301012**
(Extra Long) 13"-19" (33 - 48,3 cm) ea. side. **STOCK # 1301102**

Uni-Loop Connectors™ (Reg. & X-Long) allow a camera or binoculars to be used with several neck straps, wrist straps or harness systems. Comes in sets of 2.
(Regular) Approx. 3½" (8,9 cm) long ea. side. **STOCK # 1301062** (Extra Long) Approx. 5" (12,7 cm) long ea. side. **STOCK # 1301422**

Utility Loop Connectors™ This unique adaptor allows a camera to be attached to a Swivel Hook Strap configuration.
Approx. 3" (7,6 cm) long ea. side. **STOCK # 1301222**

MINI LOOP STRAP™-QD

The **MINI LOOP STRAP™-QD** is a snap to attach to cameras, binoculars or light meters with only one connection point. It has a large range of adjustability (19" - 26.5" [48,3 - 67,3 cm]*) using a unique slide and includes a mini quick disconnect (QD) for added convenience. The neoprene pad offers comfort when worn around the neck or shoulder.

The mini quick disconnect enables the user to quickly remove their equipment in order to attach the **CAM STRAP™-QD** wrist strap, **FINGER CUFF™-QD** or to merely store the equipment away in a small pouch. It uses a 1.5 mm loop-style cord attachment.

MINI LOOP STRAP™-QD			
Black	6901021	Royal	6904021
Red	6902021	Wine	6906021
Navy	6903021	Forest	6919021

FINGER CUFF™ - QD

- **Unique strap is ideal for small cameras & electronics** 
- **Attaches easily to a variety of devices with mini quick disconnect**
- **Compact & comfortable neoprene cuff fits on any finger**
- **Small 1.5 mm cord fits even very tight connection areas**

OP/TECH USA's **FINGER CUFF™-QD** is the smallest strap yet! This unique strap is ideal for small cameras and electronics. It attaches easily with a mini quick disconnect and is compatible with OP/TECH USA's **CAM STRAP™-QD** and **MINI LOOP STRAP™-QD**, giving one the freedom to decide which strap is best suited for each occasion.

The **FINGER CUFF™-QD** is ideal for the user who wants to carry as little as possible while keeping the compact camera firmly attached to the hand. It fits snugly around any finger for a "barely there" feeling while still offering complete security against dropping. As compact cameras continue to shrink, they actually become a bit more difficult to hold and very easy to drop. The **FINGER CUFF™-QD** ensures that the photographer has the perfect strap for any occasion or use.

For even more fun, the **FINGER CUFF™-QD** is available in several fashionable patterns: black, dots, green plaid, skull, and pink swirl.

FINGER CUFF™ - QD					
	Black	Dots	Plaid	Skull	Swirl
Single	3401021	3424021	3421021	3422021	3423021
12 Pack	3401026				
12 Pk. Asst.	3412026 - (contains 3 Black, 3 Dots, 2 Plaid, 2 Skull and 2 Swirl)				

* **Note:** All of the small straps are measured from the middle of the strap to the end of the connection area (similar to necklace measurements).

CAM STRAP™-QD

CAM STRAP™-QD is the perfect solution for carrying a point-and-shoot camera, stopwatch, radio or any other small item with one connection point around the wrist. The **CAM STRAP™-QD** features a soft, durable neoprene pad for comfort and a mini quick disconnect for added convenience and versatility.

It uses a small cord (1.5 mm) for tight connection areas. This strap is 10" (25,4 cm) long* and offers a convenient slide to comfortably secure the strap around the wrist. It uses a loop-style attachment for cameras, binoculars or light meters with only one connection point. Merely disconnect the mini QD, slide the small cord through the connection area creating an opening large enough to loop through the remaining part of the mini QD. Once secured, simply reattach to the main body of the strap. It is sure to be a nice addition to anyone's gear.

CAM STRAP™-QD

COMPACT STRAP TRIO™

- **Multi-strap system offers ultimate versatility for compact cameras and other gear.**
- **Includes three great straps that can easily interchange or be shared with friends**
- **Loop connectors with mini quick disconnects attach easily to cameras & other compact gear enabling quick, easy changes between straps.**
- **Small 1.5 mm cord fits even very tight connection areas**

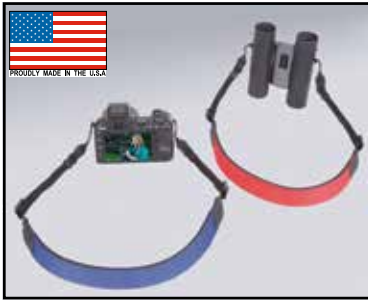

The **COMPACT STRAP TRIO™** is the perfect solution when choosing between a wrist, neck or finger strap becomes too difficult a decision. The **COMPACT STRAP TRIO™** includes a **MINI LOOP STRAP™-QD**, **CAM STRAP™-QD** and the **FINGER CUFF™-QD**. As each neoprene strap version comes with a mini quick disconnect with a loop connection, the user can quickly change from a finger, neck or wrist mode of attachment. Available in black.

COMPACT STRAP TRIO™	
Black	3401111

BIN/OP STRAP™ -QD

BIN/OP STRAP™-QD provides a stylish and comfortable carrying system for compact binoculars or cameras with two connection points. The BIN/OP STRAP™-QD uses small cord (1.5 mm) in the loop attachments which is ideal for cameras/binoculars with tight connection areas. The 1" wide neoprene pad offers comfort while the mini quick disconnects provide added versatility in a compact design. The main strap can be easily removed if desired. It's adjustable from 31.5" to 38" (80 cm to 96,5 cm).

SMALL BINOCULAR STRAP

- Neoprene strap fits most compact cameras & binoculars
- Fully adjustable
- Ideal for neck or shoulder use
- Easy to attach with 1.5 mm Mini QD Loop™ connectors

As today's binoculars are getting smaller and smaller, a less bulky strap is a necessity. OP/TECH USA's **SMALL BINOCULAR STRAP** is the ideal solution! The thin yet durable 1 3/8" wide neoprene pad offers the perfect amount of stretch and cushioning for all-day comfort and can be worn as either a neck strap or a shoulder strap.

It fastens to your gear using OP/TECH USA's exclusive **MINI QD LOOP CONNECTORS™** that are also compatible with several other OP/TECH USA neck/shoulder, wrist and finger straps. Switch from one style of strap to another in just a few seconds!

SMALL BINOCULAR STRAP

Stock #	Description	Adjustable Size	Color
2701502	Small Binocular Strap	32.5" - 39.5" (82,6cm - 100,3cm)	Black

BINO/CAM HARNESS™

- Fits most cameras & binoculars using the Uni-Loop QD system
- Stabilizes gear while enabling it to glide up and down the strap
- Easy to attach and fully adjustable
- Available in black in two versions: webbing & elastic

A perfect solution for the outdoor enthusiast seeking a simple harness system for cameras or binoculars. The **BINO/CAM HARNESS™** self-adjusts to comfortably balance gear while in use or in the idle position against the body. The unique loop attachment system enables the harness to quickly snap in place using our **UNI-LOOP** quick disconnects. These connectors can then be used on many other OP/TECH USA strap configurations.

STABILIZER STRAP™

- Fits over most cameras/lenses and holds them close to the body
- Easy to attach around the waist with a quick disconnect
- Fully adjustable

The neoprene **STABILIZER STRAP™** holds the camera close to the body which leaves hands free to navigate rough hiking trails or crowded streets without fear of damaging expensive cameras. **STABILIZER STRAP™** ensures quick and easy access to the camera by merely stretching the neoprene over the camera lens for quick removal. The **STABILIZER STRAP™** can be used with any neck strap and removed when the added stability is not necessary.

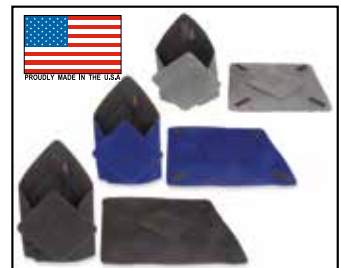

STABILIZER STRAP™

Stock #	Description	Approx. Size (L)	Color
5301002	Stabilizer Strap	19" - 55" (48,3 - 139,7cm)	Black

SOFT WRAPS™

OP/TECH USA's versatile **SOFT WRAPS™** provide extra protection for lenses, cameras, binoculars, light meters and other gear. Available in three different sizes. It comes with an extra 5" (12,7 cm) removable pad that offers extra protection where needed. The self-securing closures offer increased flexibility to wrap an item in any configuration. Gear can be easily organized in different colored **SOFT WRAPS™** for quick identification.

SOFT WRAPS™

Color	11" sq. & 5" sq. (27,9cm sq. & 12,7cm sq.)	15" sq. & 5" sq. (38,1cm sq. & 12,7cm sq.)	19" sq. & 5" sq. (48,3cm sq. & 12,7cm sq.)

Steel	6811342	6811352	6811362

QUICK RELEASE PLATE

OP/TECH USA's **QUICK RELEASE PLATE** is the ideal accessory when combined with an OP/TECH USA strap or harness. Using our System Connectors™—Uni-Loop (sold separately, see pg. 11) it allows photographers to change between wrist straps, shoulder slings and harnesses in just a few seconds... all without sacrificing the tripod mount. To change up the way the camera hangs on the body, add the **QUICK RELEASE PLATE** to the Utility Sling as a secondary connection point.

Attach a Uni-Loop™ connector (sold separately) to allow quick change from sling or harness to tripod.

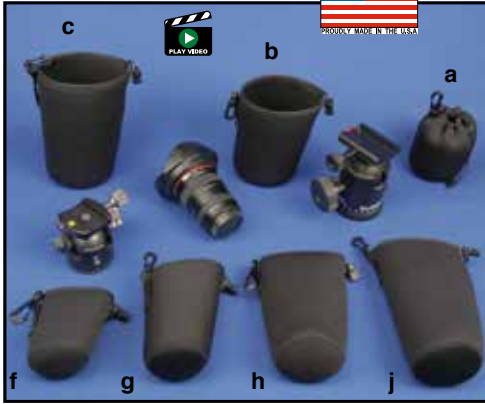

The **QUICK RELEASE PLATE** is made of high-grade aluminum. The top surface features rubberized gripping pads to keep cameras from slipping. The mounting screw has its own built-in folding handle so no tools are needed to apply it. The plate secures quickly and then the handle folds flat so it's out of the way. The plate can be mounted using any of the three provided slots to achieve the desired mounting position for your camera/shooting style.

QUICK RELEASE PLATE

Stock #	Description	Approx. Size* (L x W x H)	Color
0401001	Quick Release Plate	3" x 1.5" x .375" (7,6 x 3,8 x ,95cm)	Black

SNOOT BOOT™

- Protects most lenses and tripod ball heads against dust, moisture & impact
- Wide-mouth opening and cylindrical design for better fit
- Drawstring closure, belt loop and snap hook attachment on most models
- Available in black in NINE sizes

These are no ordinary pouches. No longer do lenses have to be put in a square pouch—the **SNOOT BOOT™** is cylindrical just like a lens. They are also ideal for tripod ball heads as they can be secured to the ball head when it's attached to the tripod or when it's stored separately. The neoprene **SNOOT BOOT™** pouches offer great protection and easy access. They even offer a convenient alternative for carrying a small camera or other items.

SNOOT BOOT™

LENS/FILTER POUCH™

- Innovative protective case provides an easy-access carrying system for a lens and two filters. Protects against dust, moisture and impact
- Offers two protective sections to better organize gear: zippered filter section with a padded protective divider holds two filters while the wide-mouth lens section offers ease of use and accommodates larger lenses with sunshades
- Drawstring closure, padded dust flap, snap attachment and belt loop finish off the lens section

BODY CAP

- **BODY CAP** protects camera's delicate interior
- Unique rubber O-Ring seal locks out dust and moisture
- Customized fit is available in two versions: Canon and Nikon

OP/TECH USA's **BODY CAP** is perfect for protecting the inside of a camera while storing a camera body separately from a lens. The unique rubber seal effectively grips to the camera body and forms a friction fit to lock out damaging dust and moisture. The customized fit and solid construction can't be beat!

Whether in the studio or in the field, protecting the substantial investment of a camera is vital to prolonging its life and usability. The **BODY CAP** offers unparalleled protection and ease of use. Be sure to check out the **LENS MOUNT CAP** below.

BODY CAP

Canon	Nikon
1101311	1101321

LENS MOUNT CAP

- **LENS MOUNT CAP** provides increased protection over traditional covers
- Unique O-ring seal locks out dust and moisture
- Available in single (one lens) and double versions (holds two lenses together)

- Available for several different lens mount styles

The **LENS MOUNT CAP** from OP/TECH USA is sure to be a hit with both amateur and pro photographers. It's no ordinary cap... the benefits and versatility are sure to please. It's designed with an O-ring seal which creates a positive contact with the full perimeter of the lens mount area to really lock out dust and moisture. It also offers a tighter friction fit over traditional caps that come with the lens so that it provides better protection to the lens mount area. This ensures that the **LENS MOUNT CAP** is securely held in place while in storage or transit. The **LENS MOUNT CAP** is available in single or double versions for several lens models. The double version is a great way to quickly switch lenses on a camera, minimizing the time the camera's sensor is exposed. Simply remove the lens from the camera and engage it in the available end of the double **LENS MOUNT CAP**. Then the other lens can be removed from the cap to be attached to the camera. Keeping gear protected in a compact fashion really helps the active photographer organize and plan for their next photo adventure.

Step up to more secure protection with the **LENS MOUNT CAP** from OP/TECH USA. It's the final touch that no lens should be without!

HOOD HAT™

- Protects the lens from dust, moisture and impact when using a hood, sunshade or nothing at all
- Neoprene HOOD HAT™ slides on with a friction fit
- Ideal for cameras, spotting scopes, telescopes & binoculars
- Cylindrical design for better fit

Finally there's protection for lenses when using a hood or sunshade. The neoprene HOOD HAT™ slides over the sunshade to protect the lens from dust, moisture and impact. Its tapered cylindrical design makes it easy to apply and easy to remove, yet it won't fall off. HOOD HAT™ is sure to be an essential part of the photographer's kit. Download the sizing chart on our website at optechusa.com/Product-Reference-Charts

FOLD-OVER POUCH™

OP/TECH USA's exclusive FOLD-OVER POUCH™ offers a convenient and easy way to store and protect small to medium lenses, mounts, converters, adaptors and other miscellaneous items. The soft, durable neoprene construction protects delicate gear against dust, moisture and impact. The unique fold-over closure system has no abrasive hardware and remains attached to the main body at all times so there's no fear of losing it.

The FOLD-OVER POUCH™ is available in several lengths and diameters to fit a wide variety of accessories.

FOLD-OVER POUCH™

HOOD HAT™ -PK

- Popular Hood Hat™ designed specifically for pancake lenses
- Textured interior material grips the lens to secure it in place
- Available in two sizes

Now there's a great way to protect "pancake" lenses right on the camera! OP/TECH USA takes the popular features of the HOOD HAT™ and offers them in a version for thinner lenses. The soft, durable neoprene of the HOOD HAT™-PK protects valuable optics against dust, moisture and impact in an easy-to-use lens cover. The addition of a non-skid surface to the interior surface helps to grip the shallower depth of these lenses and keep the HOOD HAT™-PK in place. The HOOD HAT™-PK for pancake lenses is available in black.

HOOD HAT™ -PK - Black Only	
PK-Micro, 2.5"Ø x 1"d (6,35Ø x 2,5cm d)*	PK-Mini, 3"Ø x 1"d (7,6Ø x 2,5cm d)*
8001342	8001362

*If you've added any additional hardware to your gear (i.e. lens hoods, brackets, filters, longer lenses, etc.), it may affect the fit.

ACCESSORY PACK 8" & ACCESSORY PACK 11"

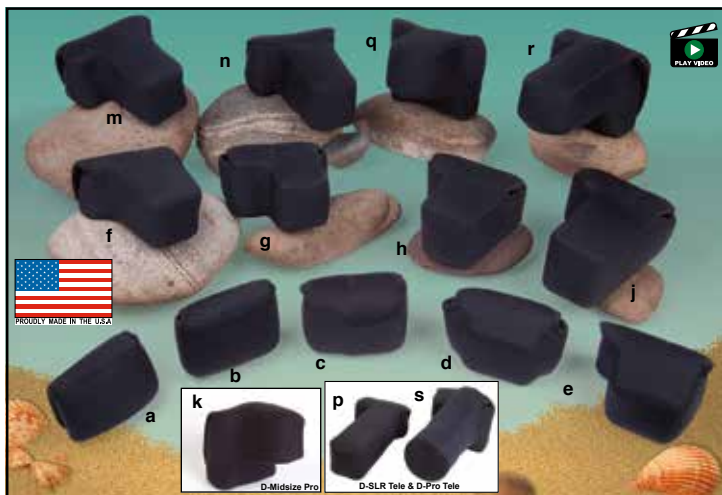

- Full-access zippered case with a webbing shoulder strap is ideal for storing, organizing and protecting all types of gear. From tablets to cameras, lenses, small cables, batteries and more, this case is the answer to keeping it all together
- Removable padded dividers (five in the 8" and seven in the 11") offer ideal versatility and protection for customizing the pouch to meet any need
- Two clear pockets offer a great place to store manuals, media cards and other necessities for quick, easy access

ACCESSORY PACK				
	Stock #	Description	Approx. Size (W x L x D)	Color
a	4901002	Accessory Pack 8"	8" x 5" x 2.5" (20,3 x 12,7 x 6,3cm)	Black

SOFT POUCH™ – DIGITAL D-SERIES

- Easy-access neoprene case fits most cameras
- Unique retaining strap offers several options for attaching to the camera or belt (The D-Micro, D-Mini, D-Small, and D-Compact have a snap hook lanyard that attaches to the camera strap)
- Great for use in the field as the case closes around the neck strap so that the strap is still usable
- Nonmarring snaps on the bottom of the pouch securely close the flap cover
- See Gear Fit List in the [Product Reference Sheets](#) section of our website or use the [Q Product Finder](#) (www.optechusa.com)

The **SOFT POUCH™ – DIGITAL D-SERIES** offers a unique protective carrying system that's ideal for the photographer on the go. The easy-access design enables the photographer to quickly access the camera. (Trick: invert the case when taking it off the camera and reverse the process when putting it back on.) The compact, tailored fit offers great protection without the bulk of a large camera bag. As camera batteries last longer and media cards hold far more storage, there's no need for a large cumbersome photo bag to carry extra supplies. What is still necessary more than ever before with delicate digital cameras is the need for good protection against impact, dust and moisture. The **SOFT POUCH™ – DIGITAL D-SERIES** offers great protection in a streamlined design so it's a pleasure to take along on a photo shoot or to pack within another bag.

SOFT POUCH™ – SLR & RANGEFINDER

- Easy-access neoprene case to fit most SLR & Rangefinder cameras
- Protects camera & lens while in use or in storage against impact, dust & moisture

- Unique retaining strap offers several options for attaching around the lens, to the tripod mount area or to a belt
 - Quick disconnect or snaps for secure closure
- t. SLR MANUAL fits most cameras with a standard 50mm lens
- u. SLR AUTO fits most cameras with 28-80 or 35-80mm lenses
- v. SLR AF-ZOOM fits most cameras with 28-200 or 28-210mm lenses
- w. SLR AF-PRO fits most film camera/lens combos with extended power drives
- x. **RANGEFINDER** fits most rangefinder cameras as well as some manual SLR & newer style cameras

RANGEFINDER-TELEPHOTO (not shown) fits the same cameras as the Rangefinder; however, it will accommodate a zoom lens measuring up to 2.75" (6,99 cm) in diameter and 4.5" (11,4 cm) in length.

SOFT POUCH™ – SLR

3 Attachment Systems Quick-Snap Retaining Strap Kit is included with Digital D-Series (except D-Micro, D-Mini, D-Small, & D-Compact) and SLR & Rangefinder pouches. It attaches in three different ways:

- 1 Rubber ring around the lens
- 2 Nylon screw for tripod mount area
- 3 Snap around belt or strap (on select models)

SOFT POUCH™ – BODY COVER

- Innovative neoprene case snugly fits the camera body protecting it from dust, moisture and impact
- Design offers more depth to better accommodate larger digital bodies

- Offered in five sizes:

- aa. **Manual:** fits most rangefinder and manual SLR bodies
- bb. **Auto:** fits most auto-focus SLR bodies
- cc. **AF-Pro:** fits auto-focus SLR bodies with extended power drives
- dd. **Midsize:** fits most mirrorless and smaller SLR bodies
- ee. **Midsize Pro:** fits most mirrorless and smaller SLR bodies with battery grip

The **SOFT POUCH™-BODY COVER** provides ideal protection for the camera body while in storage. The form-fitting neoprene cover protects against dust, moisture and impact so there's no worry when putting it in a large camera bag full of other items. The flap cover snaps on the bottom of the pouch for extra security. For the avid photographer who frequently carries several lenses and camera bodies, the **SOFT POUCH™-BODY COVER** for cameras and **SNOOT BOOT™** (sold separately, see pg. 14) for lenses combine to make a great protective storage system.

WORK MAT

- Transforms any area into a clean & safe work place
- Neutral gray color keeps small items visible
- Portable work surface rolls into a convenient carrying pouch for storage or transportation

OP/TECH USA's **WORK MAT** is a great way to protect both gear and the work surface. The soft rubberized surface grips to keep small parts in place and resists the effects of cleaning chemicals and oils. **WORK MAT**'s neutral gray color makes it easy to see very small items and the textured surface prevents items from rolling away. It's anti-static too!

Ideal for use in the home or in the field, the **WORK MAT** transforms any place into a safe work area. When not in use it rolls up tightly and fits into a convenient nylon pouch with a shoulder strap. Photographers will find many uses for the **WORK MAT** on their next outing.

WORK MAT™

	Small 16" x 24" (40,6 x 61cm)	Medium 20" x 32" (50,8 x 81,3cm)	Large 24" x 42" (61 x 106,7cm)
	3611162	3611202	3611242

SOFT POUCH™ – E-Z CLOSE

- Slim profile neoprene case offers ideal reinforced protection
- Fits easily into a bag, purse or pocket
- Secure magnetic closure for quick easy access
- Sewn-in leather belt loop for added security and convenience

Now there's a pouch to protect delicate gear and still have it fit neatly in a pocket, bag or purse. The sleek design of the neoprene **SOFT POUCH™- E-Z CLOSE** offers ideal protection along with a quick-and-easy magnetic snap closure. The soft, durable neoprene cushions against impact while shielding from dust and moisture. The magnetic closure is held within the layers of leather and neoprene to keep from coming in contact with delicate control surfaces found on many electronics. The **SOFT POUCH™- E-Z CLOSE** also features a sewn-in belt loop attachment area that remains flat when not in use so that it keeps a very slim profile. All the protection without the added bulk!

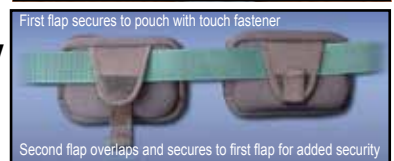

SOFT POUCH™- E-Z CLOSE is available in black in three sizes to fit the ever-changing demands of the digital and electronic market. It is a great carrying option for everything from smart phones to small digital cameras.

SOFT POUCH™ – E-Z CLOSE

	321 (3.75" x 2.5" x 1") (9,5 x 6,4 x 2,5cm)	421 (4.5" x 2.5" x 1") (11,4 x 6,4 x 2,5cm)	532 (5" x 3" x 2") (12,7 x 7,6 x 5,1cm)
Black	7301321	7301421	7301304

SOFT POUCH™ – ZIPPEEZ

- Full-width zippered neoprene case fits most compact film and digital cameras. The horizontal design securely attaches to a belt for easy access and convenience
- Main pouch has gusseted sides for maximum accessibility while front pocket offers storage for media cards, batteries and more

- Medium and Large sizes come with a webbing strap

SOFT POUCH™ – ZIPPEEZ is a unique line of zippered neoprene pouches designed to carry gear horizontally on a belt. It also has a neoprene inner panel between the pouch and the front pocket. This allows the main compartment to stretch in size to fit slightly larger cameras. The front zippered pocket is a great place to store extra film, media cards, batteries and more.

SOFT POUCH™ – ZIPPEEZ

	Small (ff) 4" x 2.75" x 1" (10,2 x 7 x 2,5cm)	Medium (gg) 4.5" x 3" x 1.5" (11,4 x 7,6 x 3,8cm)	Large (hh) 5.5" x 3.5" x 1.75" (14 x 8,9 x 4,4cm)

OUTDOOR PRODUCTS

BATTERY HOLSTER™

- Compact neoprene pouch holds extra battery or other accessories
- Loop attachment easily slides onto camera strap or belt
- Touch closure secures contents and offers quick, easy access

OP/TECH USA's **BATTERY HOLSTER™** is the ideal accessory for keeping an extra battery handy when shooting in the field. The soft, durable neoprene pouch slides onto a camera strap and is held conveniently and securely in place with a touch fastener. No need to fumble around in a camera case or backpack! It protects a battery or other small accessory from dust, moisture and impact.

Keeping an extra battery ready at a moment's notice is easy with the **BATTERY HOLSTER™**. Rest assured that there will never be another missed shot because of a weak battery.

ACTION SLING™ & ACTION SLING™ -MAGNUM

- Classic neoprene rifle sling designed for comfort and function
- Non-skid surface
- Easy to attach
- Fully adjustable

OP/TECH USA incorporates a patented comfort-stretch system into the **ACTION SLING™** for rifles. The neoprene material effectively conforms to the contours of the shoulder while evenly distributing the weight. The internal control-stretch system absorbs the shock of movements normally felt in the shoulder and back. It features a non-skid surface backing which effectively grips to the shoulder and also provides extra security when wrapping around the arm to better stabilize the firearm when shooting. The **ACTION SLING™-MAGNUM** offers four heavyweight elastic loops for holding large caliber ammunition making reloading fast and easy.

PERFORMANCE SLING™

PERFORMANCE SLING™ – DOUBLE GRIP

- Curved neoprene rifle sling
- Non-skid surface
- Left & right hand versions available. Double Grip version works on either side
- Easy to attach
- Fully adjustable

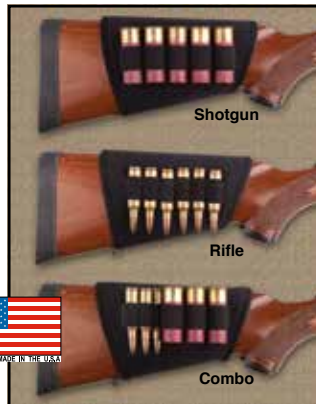

OP/TECH USA's PERFORMANCE SLING™ features our patented comfort-stretch system combined with a unique curved design. This makes it much easier to keep a rifle in a natural vertical position. The neoprene material effectively conforms to the contours of the shoulder while evenly distributing the weight. The internal control-stretch system absorbs the shock of movements normally felt in the shoulder and back. A non-skid surface effectively grips to the shoulder and also provides extra security when wrapping around the arm to better stabilize the firearm when shooting. It is offered in right-hand or left-hand versions. For those who prefer to be able to carry on either side, there's the PERFORMANCE SLING™ – DOUBLE GRIP with a non-skid surface on both sides.

STOCK COVER

- Neoprene cover protects stock while offering additional ammo storage for fast and easy reloading
- Available in five versions: Rifle, CO², Shotgun, Combo or Universal (no loops)
- Easy to attach
- Maintains its snug position and maximizes comfort

The STOCK COVER is a "must have" for all hunters. The Universal version is smooth on both sides while the Rifle, Shotgun and Combo versions use rubber backed elastic loops that help keep ammo firmly in place and convenient for rapid reloads. We use high-quality neoprene for superior protection against impact and abrasion, as well as extra cushion and increased comfort against the face. Another benefit is that the neoprene can stretch over the butt of the stock so there's no need to remove the scope.

SOFT POUCH™ – BINO

- Neoprene pouches designed for roof-style binoculars
- Protects optics from dust, moisture and impact while in use or in storage
- Includes full-flap coverage and a waist strap for added stability - adjusts up to 60" (152 cm)
- Available in several sizes in black & nature

The SOFT POUCH™ –BINO offers the user a unique storage pouch with a built-in rain guard in addition to a well-designed carrying system. It comes with a waist strap which stabilizes the pouch snugly against the user's body while offering fast, easy access to equipment. Merely fold back the top flap to quietly release the binoculars. Combined with an OP/TECH USA weight reduction neck strap, the user has a comfortable and functional system unmatched by any other.

NEW SIZE! SOFT POUCH™ – BINO WRAP™

- Perfect for field use
- Self-contained pouch remains with binoculars
- Slim enough to wear under a coat
- Works in tandem with a strap
- Two sizes to fit many different binoculars

OP/TECH USA's easy-access solution for the outdoor enthusiast! The SOFT POUCH™ –BINO WRAP™ is great protection for binoculars while in use or in storage. It is extremely handy for use in the field as there is no need to fumble with a separate case– simply unsnap the closure and refasten it above the binoculars. A heavy-duty elastic band secures the SOFT POUCH™ –BINO WRAP™ to the binoculars. Its slim design allows it to be worn with a neck strap and can even be worn underneath a coat! The SOFT POUCH™ –BINO WRAP™ fits many different roof-style binoculars as it uses a combination of three separate snap configurations and the stretch of the neoprene. Enthusiasts can spend more time looking through the binoculars than fussing with the case. SOFT POUCH™ –BINO WRAP™ is only from OP/TECH USA!

NEW! TRIPOD SLEEVES™

- Protects the delicate mechanisms of your gear from water, corrosion, sand, debris and more
- Reinforced bottom for added durability
- Drawstring closure for a snug fit
- Fits tripod legs up to 2.75" Ø x 46" l (7x116,8 cm)
- Great for monopods too
- Comes in set of three Tripod Sleeves

OP/TECH USA's Tripod Sleeves™ are a convenient way to protect a tripod's legs from the elements when shooting in rough outdoor conditions. Keeping debris from getting clogged in the internal working mechanisms of your tripod prolongs the life of your tripod and ensures that it continues to operate smoothly. Tripod Sleeves™ are ideal for shooting at the beach, on river banks, in the snow, in a muddy swamp or even in desert conditions where blowing sand and grit can damage the delicate mechanisms on a tripod. Why risk losing a great shot because you don't want to get your tripod in the middle of the action? Tripod Sleeves™ are compact and easy to store in a pocket or camera bag so there's no reason to leave them behind.

In between location set-ups, the Tripod Sleeves™ can remain on the legs as the tripod's mechanisms remain visible and operable through the plastic. The sleeves will collapse right along with the tripod leg. They're also great for monopods! When shooting in high-humidity conditions where condensation could possibly enter the sleeves, it's good to remove them to dry them out once you are done with your shoot so they are ready to go for the next outing.

The Tripod Sleeves™ are made of durable clear plastic and are easy to apply. Their generous size covers up to 46" (116,8 cm) of the leg's length and up to 2-3/4" (7 cm) in diameter. Simply pull them over the leg and tighten them snugly with the built-in drawstring and barrel lock. The reinforced bottoms offer added protection when shooting among rocks and sand. Be sure to add them to your "must-have" gear when preparing for your next photo shoot. Take them on your next adventure so you never miss a perfect shot!
